About Me

I am an enthusiastic Junior Frontend Developer based in Riga, LATVIA, with a solid foundation in HTML, CSS, JavaScript, and React, dedicated to creating engaging and user-friendly web experiences. Currently, I am expanding my skill set by learning Node.js and Express.js, aiming to become a well-rounded Full Stack Developer. I continuously seek new challenges and opportunities to improve my skills, contributing to innovative projects that make a difference.

Projects

EduConnect

Website: educonnect.uz

- Developed using Vite, React, and TypeScript for a fast and modern educational platform.
- Styled with Tailwind for a fully responsive and clean UI design.
- Implemented multilingual support with English and Uzbek languages.
- Integrated EmailJS for handling contact forms and customer inquiries.
- Set up domain-based email using Zoho Mail for professional communication.
- Utilized Firebase for authentication, hosting, and real-time support team functionality.

Items4u Store

Website: items4u.store

- Developed a fully responsive e-commerce store using Vite, TypeScript, and React.
- Integrated Bootstrap for styling and EmailJS for handling customer inquiries.
- Set up a domain-based email using Zoho Mail for communication.

Personal Portfolio

Website: anvarjon.eu

- Showcases my work, skills, and experience with an intuitive and responsive design.

Explore more projects: You can view additional projects in my portfolio or on my GitHub profile.

Work Experience

Sushimaster

MaxiSushi, Latvia | 2019 – Present

- Enhanced teamwork and communication skills in a dynamic, high-paced setting.
- Efficiently managed customer requests and provided excellent service under pressure.

Academic Background

Tourism and Hospitality Management – Baltic International Academy (2019–2021), Riga, Latvia

Aviation Transport – Riga Technical University (2015–2018), Riga, Latvia
